Public Information Service

March 9, 1954

STATEMENT PROPOSED FOR ISSUANCE BY AEC AND DOD

SYMBOL: ISP:ST

Morse suggests that if DMA believes issuance of the attached release is desirable, that Ken Fields discuss the reasons orally with the General Manager and advise us of the outcome. If the GM concurs we will then get under way the necessary additional reviews. One of these, of course, is B. & M., to whom we are now sending a copy of the draft in order to be set for action if your point carries. The others, which are more complex are with DOD, Interior and State (U.S. Delegation to the UN).

Attachment:
Copy of draft of proposed subject statement

CC: Dr. John E. Bugher, Director, Division of Biology & Medicine
John Hall, Chief, Office of Special Projects
Dr. J. G. Beckerley, Director, Office of Classification

Access # 326-78
