TRAVEL AUTHORIZATION AND SECURITY CLEARANCE FOR URGENT VISIT TO PACIFIC PROVING GROUNDS: DR. CHARLES L. DUNHAM AND DR. GEORGE V. LE ROY

SYMBOL: BME:HCB

This is pursuant to a conversation this morning between Howard Brown and Colonel Greenberg of your office.

In view of the distinct possibility of exposure of native personnel in the Pacific area to substantial doses of radioactive fall-out, and further in view of the medical and political significance of this possibility, we have arranged for medical teams from AFSWP and NMRI to proceed to the area as soon as possible. For the purpose of supervising the Atomic Energy Commission's direct interest in this matter, we are also ordering Dr. C. L. Dunham and Dr. George LeRoy to accompany these teams.

We would appreciate very much your making arrangements for necessary military orders and security clearance on an urgent basis. Doctors Dunham and LeRoy also will have unlimited AEC travel authorization. Essential data appear below:

Full name:	Dr. Charles L. Dunham	Dr. George V. LeRoy*
Home address:	Washington 16, D. C.	Chicago, Illinois

[redacted]

For your information, AEC travel authorization includes the Marshall Islands, Eniwetok, Bikini, Kwajalein, and such other places as may be necessary and as often as necessary, using such transportation as may be appropriate for the accomplishment of the mission. We trust that military orders will offer similar flexibility.
