Subject: PROPOSED PURCHASE ORDER NO. J-26621, LOS ALAMOS SCIENTIFIC LABORATORY

Dear Mr. Connell:

Confirming our recent discussion, the subject purchase order is approved, subject to certain additional information being furnished, as outlined below.

We have confirmed through Santa Fe Operations Office that the service to be performed by Pan-American Airways is intended ultimately to replace that previously furnished by the Military Air Transport Service, for transporting personnel only. We have also been informed that the contract provides for up to seven outgoing flights, at approved tariff rates for chartered flights; and that a recent modification provides for seven return flights at ferry rates.

The proposed purchase order specifies an estimated $40,000 to cover the UCRL pro rata portion of transporting personnel between Hickam Field, Honolulu, and the PPG area. You have verbally informed us that the agreement with Los Alamos Scientific Laboratory contemplates prorating 40% of the total cost to UCRL. An explanation of the basis for the 40% proration, and for the $40,000 estimated cost would be appreciated.

Sincerely yours,

E. C. Shute
