Origin USIA

Info SAE FE P OCB

1. Request (a) brief report on items presented in atomic exhibit and reception of exhibit by Japanese, including attendance, interest, effects; (b) your views regarding presentation exhibit in other Japanese cities, preferably under joint US-Japanese sponsorship, in order show more widely peaceful application atomic energy by US.

2. If your reaction item (b) favorable, also consider items desired to improve exhibit and advise Agency. For example, may be possible provide by September working models nuclear reactor (pile) atomic power plant, teletherapy unit (using isotopes in medicine), and thickness measurement control (using isotopes in industry). For your information, complete atomic exhibit assembled by Agency, including above models and mobile unit would cost about $30 thousand. Such exhibits being prepared for use in India, Near East, Europe and Brazil. Detailed description this exhibit will be provided if you desire.

3. Expanded exhibit would be financed from new expected savings FY 1954 funds. Advise soonest if you agree and include estimate additional GOE required, if any.
