Brig. Gen. Kenneth Fields
Director of Military Application
Atomic Energy Commission
Washington 25, D. C.

Dear General Fields:

Herewith is a copy of the so-called Pate-Palmer Weather Report together with the comments of Dr. Alvin C. Graves, who was the Scientific Director of Joint Task Force 132.

You will note that Dr. Graves has raised considerable objection to certain parts of the report. I concur in Dr. Graves' comments.

Since the report is controversial and does not have the approval of the Commander, JTF-7, no distribution of the report will be made. This copy is furnished for your information with request that no copies or any further distribution be made.

Sincerely yours,

P. W. CLARKSON
Major General, U. S. Army
Commander
