FPO, San Francisco  
California

Dear Gene:

I hope this letter gets to you too late. In case it doesn't, I want to apologize for not having replied to yours of April 7 sooner, concerning the Radiological Society of North America program. I delayed replying because of the fact of which you are well aware - that George LeRoy has very strong opinions about where this material should first see the light of day. George will be here Thursday of this week, and I can discuss it further with him at that time, although when I saw him briefly in Chicago on April 28 he was still of the opinion that the AMA was a better sounding board.

Incidentally, I checked with the boys in Security concerning the restricted data aspect of things. Their offhand opinion was that it would be stretching a point to include this sort of thing under the Act.

Here's hoping to see you soon.

Sincerely yours,

Charles L. Dunham, M. D.  
Chief, Medical Branch  
Division of Biology and Medicine
