George Udell, Director
Supply Division, ALO

SUBJECT: REPORT OF DISPOSAL OF EPG SURPLUS PERSONAL PROPERTY

SYMBOL: ASP:SNM

The attached memorandum report of EPG disposals of personal property through December 13, 1959, corrects and supplements the report transmitted by our memorandum of December 18, 1959. In the future, we will keep you advised of any substantial changes in the EPG disposal picture due to phase down.

You may be interested to note that, of the \$1.4 million disposed of or committed for shipment, \$1.3 million or 88% represents utilization within AEC or by other Federal agencies, including the Trust Territory of the Pacific. We have an indication of requirements in the order of a quarter million dollars by American SAMOA and the International Cooperation Administration.

You may also wish to note that, for sales, the report indicates a recovery of \$100 thousand from property having an original acquisition cost of \$166 thousand with a GSA Fair Value of only \$14 thousand.
