WEATHER STATION AT TAONGI

Symbol: MAT:RIS

Reference is made to a letter dated January 21, 1957, from Dr. G. W. Johnson, UCMC, to Captain Nysick, DMA, copy of which you received, concerning a study of the weather at Taongi made by the JEP-SIXTH Meteorological Center in 1954. This investigation.

Dr. Johnson indicates in his letter that he has been sufficiently encouraged by the report of this study to request the establishment of an upper air station at Taongi for a period of one year preceding HARDTACK, in order to obtain more definitive meteorological information.

Your comments and recommendations on this proposal are requested, to include the costs involved and method of funding.
