Mr. William Siri  
Donner Laboratories  
University of California  
Berkeley, 4, California.

Dear Will:

I was most surprised to hear from you so quickly. Judging from the world news I suspect you may not be going to the Himalayas and I shall not be going to the Marshal Islands. In any event I should appreciate your sending to me now all your instructions for the T.B.W. determination so that I know how much space we will need for sample bottles. Also, Conard will want to know how much tritium each patient will receive.

I don't see why it should make any difference to Jean whether you are in town or not when I go through San Francisco. It never has in the past. The crack about John Weaver and Jim Born is obviously derived from you and I shall disregard your elementary sarcasm. I still hope that we will make the trip and if yours is cancelled out (it is not really an important expedition) I will see you in February. My best regards to Jean, John Weaver and Jim Born.

Sincerely yours,

Leo M. Meyer, M.D.
