Dear "Chuck":

Apropos of our recent discussion and the previous letter that I have written to you in respect to the interest of Dr. Conard in taking an active leading part in the follow up study of the Marshallese, it appears to me that if this were to be accomplished that it would be most desirable to have all of the Marshallese records kept at Brookhaven so that they would be accessible for reference and could be best kept up to date. I know at the present time when Conard and I are trying to get data from earlier periods that it is most difficult to do it with the records in the AEC files. Have you any suggestions as to how this could be implemented.

With best regards, I remain

Sincerely yours,

Eugene P. Cronkite, M. D.
