To the People of Utirik

I have received your letter of July 9, 1976, regarding the medical program conducted in the Marshall Islands by the Energy Research and Development Administration.

Although this office assists with and supports the ERDA medical program, responsibility for the program rests with ERDA Headquarters in Washington, D. C. I have therefore forwarded your letter for consideration by that office. You may expect a response direct from Washington.

By copy of this letter I request that the District Administrator, Marshalls, arrange for its translation into Marshallese and forwarding to Utirik.

Sincerely,
