Subject: SALARY, WAGE, TRAVEL AND EXPENSE RULES FOR PFG

Dear Mr. Harford:

Reference is made to your April 13, 1964 request on this subject. By telephone we were later told LRL was revising the request by eliminating the words "and aboard airborne operational aircraft" in the second line of paragraph 4, Table IV, Special Table for employees assigned to 54-Hour Work Week.

Consistent with the above, the revised Salary, Wage, Travel and Expense Rules for PFG are approved.

In eliminating the requirement for a 30-day minimum duty period to qualify for the PFG differential allowance of 25%, it is emphasized that stringent controls should be established to assure that no unwarranted payments of the differential allowance are made.

On June 11, 1964, Mr. Goodbread's letter to Mr. Reynolds, Subject: Flight Pay - UCLRL, requested that LRL maintain necessary records to provide a December 1964 report on application of the Flight Pay policy. We also ask that information be included in your records on the extent of simultaneous application of the 25% flight pay and 25% PFG differential allowance in order that this information can be included in the December report.

Sincerely yours,
 W. E. Harford

J. H. Drummett, Jr., Acting
 Assistant Manager for Administration
