April 29, 1958

TO: R. E. BATZEL (EPG)

SUBJECT: Subcontract 108 - Cooper Development Corporation

Attached is a copy of Cooper's letter dated April 22, 1958 which augments information furnished you April 18, 1958.

We have determined that we can accept credits from Plumbbob Appendix A on Appendices B, C and D. Based on a conversation with Mr. Reynolds on April 26, 1958, we will add \$45,000 at this time as an amendment to the contract. \$35,000 of this was from uncommitted money held in reserve. The 96 LOKI units have been returned for credit and I have written Dr. Thaler, Office of Naval Research, Washington, D. C., requesting that he write off 20 LOKI units as test units. If he approves, this will release approximately \$7,400 which Cooper has included as a credit in arriving at the present \$61,668 shortage.

The most critical cost problem at this point is the amount and duration of Cooper manpower required at EPG. I believe Mr. Reynolds will discuss this with you while he is at EPG. Please advise your prediction of requirements in this regard.
