Dear Mr. Shute:

**SUBJECT: Cooper Development Corporation
Subcontract 108**

The effective term of Subcontract 108 expires January 31, 1958. We are in the process of certain close out action including personnel security, property accountability and preparation of final reports.

It is suggested at this time that you initiate action to obtain patent close outs. Cooper Development indicated there may be some patentable ideas on the launcher but they did not feel there were patentable ideas developed as an outgrowth of the rocket effort.

Cooper Development Corporation's fiscal year is March 1 through February 28. Cooper will request the Navy Audit Office to commence Cooper's fiscal year audit approximately April 15, 1959. On this basis, it will probably be late in 1959 before final overhead rates can be ascertained to permit final contract close out.

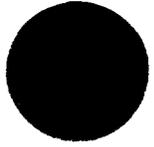

Very truly yours,

C. L. Blue
Assistant Business Manager
