 Jamaica, New York 11432

Dear Leo,

I should think that blood volume and total-body-water measurements on Caucasian islanders (6 months or more residence) would give more meaning to your studies on the Marshallese.

We will be glad to provide the HTO and do the assays.

When do you expect to assault the West Coast? We are recovering from the flood damage, student uprisings, and sundry other disasters, and should be ready soon for your visit.

Best regards to you and Lillian.

Sincerely,

William E. Siri.
