Dear Lebi:

Milicent and I certainly enjoyed the party Saturday night that was given in your honor.

I have shown your history to our employment people here. They do not know of an opening here which would make use of your background. Of course, I was a little fearful that this would be the case. They suggest, however, that you get in touch with Holmes & Narver, Inc., 828 South Figueroa, Los Angeles.

Holmes & Narver has, for the past few years, been a contractor for the Atomic Energy Commission and has been the civilian service operator for the Pacific tests. They are extremely well-known outside. They are so competent that if a fellow could get a job with them, he would know that he was working for good people. I don't know what else they do besides Atomic Energy Commission work; but I am sure they must have a diverse organization. People like that don't sit around twiddling their thumbs.

If I get any other thoughts or suggestions which seem sensible, I will send them on to you. In the meanwhile, I am returning your history folder. In passing, may I congratulate you on the way it is written up.

Best regards to Tish.

Sincerely

Donald Cooksey
