Health Chemistry
Radiation Laboratory
Campus

Dear Mike:

Relative to your letter to Dr. Dunham of December 19 and the air sampling program in general, I should like to tell you of discussions I have had with Dr. Cooksey and with Rod Southwick, the new public information man for SAN. All three of us are in agreement that Southwick hereafter should handle public information on the air sampling program. I should, of course, like to keep informed.

To establish an agreement for such handling, I suggest that Southwick and I get together with you (and Nels Garden or anyone else if their presence is called for). This is simply to advise you that I will be in touch with you in about 10 days with this in mind.

Sincerely yours,

Daniel M. Wilkes

DMW/dmt
