Dr. Herbert F. York
University of California Radiation Laboratory
P. O. Box 808
Livermore, California

Dear Dr. York:

I take this opportunity to express my appreciation for the contribution the University of California Radiation Laboratory made to the success of Operation Teapot. In addition to direct participation in the scientific effort, the technical and staff assistance given to the Test Manager by Duane Sewell, Gerald Johnson and Vay Shelton was most valuable.

Please accept my personal thanks for having made such competent individuals available to the Test Organization, and extend to the University of California Radiation Laboratory personnel who participated both at home and in Nevada our sincere appreciation for their contribution to this important program.

Sincerely yours,
