Memorandum

To: High Commissioner
From: District Administrator, Marshalls
Subject: Rongelap Medical Survey

BEST COPY AVAILABLE

Mr. Macdonald's memorandum of 31 March 1960, with respect to Rongelap medical survey contains my thoughts on the subject.

1. The Trust Territory should retain complete control of the medical problems of the people of the Trust Territory.
2. An annual medical survey at Rongelap is not needed for the benefit of the Rongelap people. The Annual Survey should be discontinued, effective 1961.
3. A complete survey should be made, especially the body burden examination, every five to seven years.
