

SUBJECT: Directive to Sub-Committee No. 1 on Future Status and Utilization of Edgewood Proving Ground

e. That AEC personnel in EPG will be phased down during calendar year 1959.

h. Recommendations should cover:

a. Responsibilities of Military and AEC contractor personnel remaining in EPG.

b. Military personnel by Services to remain in EPG.

c. Disposition of material and equipment.

d. Command and control lines.

e. DOD functions or activities to be transferred to AEC on a reimbursable basis and cost thereof.

f. Timing of phase-out and transfer of functions, personnel and equipment.

g. Necessary revisions to existing AEC-DOD Agreement reflecting changes in responsibilities where appropriate.

h. Necessary revisions or additions to existing JCS, Unified and/or Specified Command agreements reflecting change in responsibilities where appropriate.

5. Sub-committee will report to the Working Committee by 1 June 1959 on their progress, to include recommended completion date for the study.

6. Direct communication authorized.

* "Maintenance Standby" status means limiting expenditures of these funds necessary to prevent deterioration of facilities or disposal of equipment in the EPG beyond the point where their replacement or return to operational status to support tests could not be effected within 12 months.
