21 June 1954

SUBJECT: NOTICE OF VISITS TO PACIFIC PROVING GROUND

TO: Distribution

Task Group 7.5 (Atomic Energy Commission Task Group) must be notified of proposed visits by personnel of Task Group 7.1 to the Pacific Proving Ground prior to the visitor's departure from the United States. This notification will enable TG 7.5 to alert its representatives overseas regarding services and facilities which visitors will require to accomplish their mission, and will also enable the Eniwetok Field Office of the Atomic Energy Commission to check security clearances.

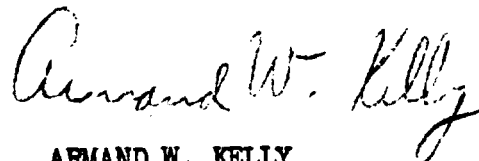

Headquarters, TG 7.1 will make the notification to TG 7.5 at the time military travel orders are prepared. Each request for travel orders must, therefore, be accompanied by AEC Form 277 which indicates the information required. (AEC Forms 277 are available in the Task Group Adjutant General's Office, Room 103, Building A). The completed Form 277 must be in this Headquarters before travel orders will be released.

In an emergency, where time does not permit mailing Form 277 to this Headquarters before orders are needed, the necessary information may be telephoned to Los Alamos 2-5289.

Form 277 must contain no information classified higher than OFFICIAL USE ONLY.

Memo J-16804, 14 April 1953, subject as above, is rescinded.
