January 27, 1966

My annual trip to the Marshall Islands will be spending some time on a fairly large number of Americans

Good volume studies on some of these will require your help on total body water and body water. If this is agreeable to you, I shall require instructions.

I hope Jean and you will be free to spend an evening together. I shall of course contact the Weavers before I leave New York.

With kindest regards,

Sincerely yours,
