Carbide and Carbon Chemicals Company
Post Office Box P
Oak Ridge, Tennessee

Attention: Mr. C. E. Center, Vice President

Subject: CARBIDE COOPERATION IN NEVADA TESTS

RG DOE HISTORIAN (DBM)
Collection 1132
Box 3362
Folder #3

Gentlemen:

I should like to express to you at this time the appreciation of the Commission for the aid and contributions of Carbide and Carbon Chemicals Company scientific personnel during the last Nevada test series.

Thanks are particularly due the members of Dr. K. Z. Morgan's staff from the Health Physics Division, Oak Ridge National Laboratory. In the words of the Director of the Division of Biology and Medicine, who has continually maintained a most profound interest in the test program, "We feel that Mr. G. S. Hurst has made a real contribution to our knowledge of neutron measurements through the development of his ideas in fission detectors. Messrs. P. N. Hensley, J. A. Harter, R. Clark, E. L. Sharp, and W. Mills greatly contributed to the success of this program by their smooth execution of the field operations."

I join with Dr. Bugher in congratulating the members of the Carbide group for their achievements and in thanking them for their cooperation in a difficult undertaking.

Very truly yours,

for *N. H. Woodruff*
