HEALTH AND SAFETY REGULATIONS

SYMBOL: BME:HCB

Attached please find the most recent draft (February 3, 1955) of the Health and Safety Regulations for Licenses. The Committee believes that this draft is in sufficiently final form to warrant your review and concurrence. Your concurrence now is a condition precedent to publication in the Federal Register.

It occurs to me also, that it would be appropriate to submit copies to the ACBM members for their review, and for Committee concurrence at the next meeting.
