DRAFT OF PROPOSED HEALTH AND SAFETY CRITERIA FOR LICENSES

SYMBOL: BME:HCB

Enclosed is the most recent draft of the proposed health and safety criteria for licenses, as recommended by the Committee appointed by Dr. Bugher for this purpose. We recognize that the draft has some technical deficiencies which we believe can be overcome without too much difficulty. The draft also needs further study by the Office of the General Counsel. Pending the latter study, we believe the Committee has gone about as far as it can go at this time and that the draft is in sufficient shape for your review and consideration by Mr. Price.
