

Office Memorandum • UNITED STATES GOVERNMENT

APR 15 1954

TO : Dr. Paul B. Pearson, Chief, Biology Branch,
Division of Biology and Medicine, AEC, Washington, D. C.

DATE:

FROM : Joe B. Sanders, Acting Field Manager, Las Vegas Field Office

404993

SUBJECT: LIVESTOCK LOSSES

SYMBOL: NE

There is attached a letter received in this office on April 14, 1954.

I plan to go to Cedar City area on or about May 3, 1954 to obtain some trotters from stillborn lambs for Bernie and will discuss sheep losses, symptoms, etc., during 1954 with Wallace Thorley and some of the more familiar stockmen.

Wallace Thorley's herd ranged during the winter of 1953 around Sunshine, 50 miles north of Hiko and I am assuming the sheep referred to in Steve's letter were also in this area.

That there should be radiation of our making there, or any other place outside of NPG, is impossible, but if Steve thinks a radiac meter is necessary to prove this point, I see no objection to taking one along to Cedar City and leaving it with Steve.

Please advise any recommendations concerning the letter or follow up on livestock difficulties in this area. I will coordinate all future activities with Monroe Holmes.
