Dear Bob:

I very much appreciate your nice letter of January 20 and the two discs recording the interview we did in KSUB studios.

Your very fine cooperation has and will, I am sure, continue to be most important to the Atomic Energy Commission in maintaining good public relations in Southern Utah.

I will, of course, be interested in any information you might pass on to us regarding the general attitude of the sheepmen in connection with the studies that have been made and planned for the future relevant to the etiology of the sheep losses.

Sincerely yours,
