MEMORANDUM FOR

Mr. John A. Hall,
Atomic Energy Commission.

Attached is a communication to the Department from Sherman Adams, Assistant to the President, and its attachment, a letter to the President from Robert Hill of the University of California. I believe that a more meaningful reply to the Hill letter could be forthcoming from the Atomic Energy Commission than from the Department of State.

The Hill letter has not been acknowledged; however, the White House has been informed of our action in transferring it to the Commission.
