

Office Memorandum • UNITED STATES GOVERNMENT

TO : Earl Green, Division of Biology
and Medicine, Washington

DATE: October 26, 1954

FROM : *Don Gardiner*
Donald M. Gardiner, Chief, Biology Branch
Technical Services Division, Chicago Operations Office

405093

SUBJECT: ATTENDANCE AT GENETICS CONFERENCE NOVEMBER 19 AND 20, 1954

As suggested in our recent phone conversation I have arranged the loan of a tape recorder from our Security Division and am now planning to take an intensified course in its use. Have also made arrangements for Guest House accommodations and have been assured that adequate space will be available.

There are some security considerations that will require special arrangements for entrance to the laboratory for the Saturday session of the meeting and it will be necessary for us to submit to our Security Division the list of proposed invitees together with their academic affiliations and nationality. I have the list provided in Dr. Bugher's memorandum of October 6 but would appreciate being informed of additional invitations that might be sent. I am particularly interested at this time in learning if any of the group are not American citizens. Would you care to undertake the task of providing this information? On receipt of such intelligence I will in turn take care of the local security requirements.
