

R

TO: Chief of Operations JOB: 884

FROM: Chief Project Engineer RE: Building 419, Gantry Crane

DATE: March 1, 1954

Attached is a letter from Crane Hoist Engineering Corp. covering their recommendation regarding the difficulties which have been experienced at the jobsite with the gantry crane, Building 419. It is requested that a requisition be written to cover the purchase of a new load brake which will be exchanged with the one installed in the present crane. This requisition should cover the repair and reshipment of the existing load brake to the jobsite.
