SUBJECT: FINAL REPORT OF ACCUMULATED RADIATION EXPOSURES FOR
OPERATION CASTLE

1. Forwarded, herewith, are three copies of the Task Unit-7 final report of accumulated radiation exposures for Operation Castle, Task Group 7.5.

2. The maximum permissible exposure for the operation was 3900 milliroentgens. The operation was considered to cover the period 15 February - 18 May.

3. Additional copies of these exposures will be sent to the AEC Resident Engineer at the Pacific Proving Ground. A master exposure record will be available at J-Division, Los Alamos Scientific Laboratory; AEC Division of Biology and Medicine, and Joint Task Force SEVEN.
