 FROM: J. H. MANNING RE: SANTA FE OPERATIONS OFFICE -- CONTRACT
EQUIPMENT TRANSFER
 DATE: JANUARY 5, 1954

Attached hereto are two copies of a letter from J. R. Turan, together with two copies of extracts from a memo dated December 23, 1953 to S. R. Sapiro, Manager, Oak Ridge Operations Office from J. G. Hughes, Director, Division of Biology and Medicine on the subject of Equipment Transfer, Scioto Plant, for use in the Donaldson Experiment at the Jobsite.

This letter and memo will serve in place of purchase orders and contracts which we have forwarded to you in the past covering equipment to be shipped to Pacific Ports Industries for packaging under our contract. The handling of these items will be exactly the same as if you had a purchase order or contract similar to those previously forwarded to you.

For identification purposes, it is suggested that you use the list and item number and refer to this memo, a copy of which is being turned over to our Accounting Department, and a copy is also being sent to the Jobsite.
