

TO: David L. Narver, Jr. JOB: 884 O/S 6758
FROM: R. A. Boettcher RE: Precise Location - Station 50

DATE: 14 September 1953

406213
Survey R

Transmitted herewith are three copies each of survey data for the precise location of station 50. As is stated on page 183 of the enclosed field notes, we were unable to obtain the complete triangle station 50 - Salt - P. O. T. We will try to finish the tie when conditions permit, but if it possible to do so, we suggest basing the location on the enclosed information and that shown on Misc. Dwg. 108.

Included with this transmittal are duplicate tracings of three sketches by L. S. Hammond relating to these ties. The originals of these sketches were hand carried to jobsite during your recent visit. It is believed that they may prove helpful in interpreting our field work.

Items included are as follows:

- 1. Field Book 1050, Pgs. 181-187.
- 2. Abstracts of Directions, Sheets 70 - 73.
- 3. Sketches by L. S. Hammond (3 sheets).
