

HSC 407, Part 5

a/ Total program requirements are based on FY 1959 planning assumptions (Appendix 8). The impact of implementation of the policy of partial evacuation if one hour warning is provided has not been fully determined, consequently requirements are subject to upward or downward revision. Additional changes may be made if warning time is further extended.

b/ Distribution by program as submitted to Congress in connection with FY 1958 budget request, amounts shown for Contributions Program subject to revision in accordance with matching funds requests from States.

c/ Revised downward since previous report to reflect increased cost of broad program and deletion of certain chemical warfare items proposed.

d/ Revisions reflect budgetary and management changes and other administrative changes.

e/ Revised downward since report to reflect increased cost of broad program and deletion of certain chemical warfare items proposed.

f/ Revised upwards since revisions proposed to provide for additional needed systems.

g/ Revised upwards since previous report to reflect additional requirements arising from change in planning assumptions.

h/ Revised downwards since previous report to reflect decrease in requirements.

i/ Revised downwards since previous report to reflect decrease in requirements.

j/ Revised downwards since previous report to reflect decrease in requirements.

k/ Revised upwards since previous report to reflect additional requirements incident to partial evacuation program.

l/ Federal share of engineering program previously included in Federal stockpiling program.
