

R

UNITED STATES  
ATOMIC ENERGY COMMISSION  
WASHINGTON

January 5, 1956

Honorable John Foster Dulles  
Secretary of State  
Washington 25, D. C.

Dear Foster:

I attempted this noon through your office to arrange to see you briefly at your earliest convenience. I explained that the matter was urgent and that it concerned a press release to be issued by the Atomic Energy Commission within the next few days.

This press release will announce the series of nuclear weapons tests now planned to be conducted at the Pacific Proving Ground this coming Spring.

There are matters bearing on this announcement which I feel I should call to your attention before its release.

Sincerely yours,

*Thomas E. Murray*

Thomas E. Murray
