Handed to me by Col. [unclear]

In view of starting [unclear]  
of [unclear] Committee  
I wonder if the attached is  
a good idea. You may wish to  
check [unclear]'s views. The [unclear]  
also is that it would be a good idea  
to send [unclear] [unclear] to  
Cutler or Hoover if he thinks it  
is not proper place to [unclear]

Mr. [unclear] [unclear]

UNITED STATES  
ATOMIC ENERGY COMMISSION  
WASHINGTON, D. C.

January 21, 1946

MEMORANDUM FOR THE CHAIRMAN

Subject: Need for Approval of Atomic Energy Act of 1945  
in Disarmament, by the Atomic Energy Commission  
(Incident in Development of Atomic Energy Act of 1945  
in Disarmament)

Disarmament is a subject which has been discussed for many years for our Government to make a policy of disarmament since the advent of the A-bomb. As the result of the atomic bomb, the world has been obviously being subjected to a new era of international relations. The parade in the United States and other countries and the power of the atomic bomb has been a new era of international relations and the increasing power of the atomic bomb has been a new era of international relations. The present situation is a new era of international relations.

On August 14, 1945, the atomic bomb was dropped on Nagasaki, Japan, on February 25, 1945, the atomic bomb was dropped on Hiroshima, Japan, and our Government has been able to control the atomic bomb. It is our duty to control the atomic bomb and to make it a new era of international relations. The present situation is a new era of international relations.

It is our duty to control the atomic bomb and to make it a new era of international relations. The present situation is a new era of international relations. The present situation is a new era of international relations.

It is our duty to control the atomic bomb and to make it a new era of international relations. The present situation is a new era of international relations.

campaigns of the Communist Party of the United States of America on H-bomb test and the matter of the H-bomb. It is the very first step to present and to discuss our point of view on the subject of H-bomb.

I recommend the appointment of a special group (Special Group) adequately staffed with representatives from the State, USIA, DOD, and AEC. This group should be set up in approximately one month out, regardless of whether the H-bomb issue is debated in the UN.

The attached letter was written primarily in response to a suggestion by the H-bomb issue. It expresses some nice sentiments but does nothing to counter the H-bomb issue. It is against the well-known H-bomb issue and the H-bomb and the H-bomb issue.
