OFFICE OF THE ASSISTANT SECRETARY OF DEFENSE
WASHINGTON 25, D. C.

4 November 1955

RESEARCH AND DEVELOPMENT

Colonel Richard Hirsch
Operations Coordinating Board
Room A 404
708 Jackson Place
Washington, D. C.

Dear Colonel Hirsch:

Attached for your review is a paper prepared by Hibertus Strughold, PH D, MD, Chief, Department of Space Medicine, USAF School of Aviation Medicine, Randolph Field, Texas, on "Medical Problems Involved in Orbital Space Flight." The paper is to be given at the Space Medicine Session, American Rocket Society Annual Meeting, at the Diamond Jubilee Annual Meeting of The American Society of Mechanical Engineers, in Chicago, Illinois, November 13-18.

As this paper relates to satellites, I have reviewed it with the National Science Foundation and the National Academy. The Department of Defense proposes to release the attached paper and this action is concurred in by the National Academy and the Science Foundation, subject to our instructing the author that he must in no way relate this paper or his address to the current scientific satellite program.

It would be appreciated if you could telephone me and advise me of your views in connection with this action.

Sincerely yours,

C. S. Weaver
CHARLES S. WEAVER
