

OF

CROSS REFERENCE SHEET

NO

108-A

Name: STRAUSS, Lewis L.

Date: 11/23/55

Organization: ATOMIC ENERGY COMMISSION

Address:

Regarding:

Ltr to the President stating Allen Dulles sent word to him yesterday of the large test (1 to 5 megatons) just detonated by the Russians and he will announce it after some confirmatory data on tomorrow or Friday. Has not yet said anything publicly re our next test series scheduled to begin in May at ENIVETOK and EKINI. Foster Dulles concurs with him that such an announcement might well be made within about a week after the news of the Soviet shot becomes known since in that atmosphere, adverse comment will be less likely in those who advocate that we cease testing altogether. Asks his approval of this. note: 11/23/55 Pres. indicated approval to Gov. Adams. Strauss advised.
