March 24, 1954

Dear Jack:

To confirm our phone conversation of this afternoon in regard to the H-bomb film release, the following is what we would very much appreciate having to produce our story. We would like (1) two sets of prints made from the film for standard release; (2) the film itself; (3) the negative of the film itself. Yesterday I talked with Jim Hagerty about the subject and followed up our conversation with a letter in which I merely asked for the negative of the film. I should have included also what we had talked about verbally -- the stills and the film itself. I am sending a copy of this letter to Jim.

Many thanks.

Best regards,

George P. Hunt
