Memorandum For: Honorable Lewis Strauss  
Chairman  
Atomic Energy Commission

x OF 61

From : James C. Hagerty

x  
Here is a letter from Ed Darby, White House correspondent for TIME - LIFE magazines. It raises the questions of publication dates in connection with the film that we discussed on the phone the other day. If and when any decision is made on the film, I would appreciate it if you would bear this in mind so we can cooperate with LIFE magazine and give them an equal break with the newspapers. Thanks a lot.
