FOLDER MRA 7 Hardtack v1

FALLOUT DATA FROM OPERATION HARDTACK

SYMBOL: SECY:JEA

1. This is to confirm our telephone notification on April 10, 1957, that at Meeting 1276 on April 9, the Commission:

Agreed that a prime objective in Operation HARDTACK is the accurate establishment of local fallout in order that the world-wide contribution can be accurately calculated by difference, and in order that the effects of firing conditions can be determined, especially those established by the Fireball Chemistry Group. The Commission will review the plans of the Task Force in this regard in September 1957. LASL, UCRL (Livermore) and Sandia should give any necessary assistance, with LASL and UCRL being given prime responsibility for the technical aspects of this local fallout part of Operation HARDTACK.

2. The General Manager has directed that recommendations be submitted to the Commission for implementing this decision.
