W. B. McCool, Secretary

SOURCES OF CONTAMINATION ON PACIFIC ISLANDS
AFFECTED BY FALL-OUT

SYMBOL: SECY: JHS

1. This is to confirm that at Meeting 1078 on April 27, 1955, Commissioner Libby asked to be informed concerning cesium vs. strontium contamination on the Pacific islands affected by fall-out.

2. In general, reports prepared for a single Commissioner are to be made available to the other Commissioners also. If you desire, we will be happy to assist in reproducing this information and circulating it to the Commission.
