PROJECT TROLL

BOX No. 44 (NN3 326-93 (10))

SYMBOL: SECY: JHS

FOLDER M+AS 3-2 Monitoring

1. You will recall that at Meeting 1069 on March 23, 1955, Mr. Brown of the Division of Biology and Medicine reviewed plans for a press release on Project TROLL and for discussions between TROLL scientists and the Japanese. The Commissioners expressed interest in seeing analyses of data gathered by the Project.

2. Mr. Brown has informed us that he will prepare a draft press release and, if the release the Division wants to make is consistent with the data, he will transmit the release and the analyses to you and suggest submitting them to the Commission. In any event he will make the analyses available to the Commission.

3. Depending on the analyses, it may be possible to consider most of the Project's data unclassified. If so, the Project personnel will be authorized to discuss the data with the Japanese, if not, there will be no discussions.
