2. CURRENT ACTIVITIES REPORTS

The General Manager and Division Directors reported on current developments at field installations and on the progress of matters under study by the staff. Questions by the Commissioners were discussed.

d. Status of Lithium-6 Production

Mr. Carothers reported that on December 1, production of Lithium-6 required for the forthcoming test operation had been completed. The original date for completion of the requirement was February 2, 1954. Production of additional material is now under way.
