Dr. E. V. Carlson  
University of California  
Berkeley, California

Dear Dr. Carlson:

The President has requested the Atomic Energy Commission to convey his commendation to the scientific personnel responsible for the success of the 1948 atomic weapon test program at Eniwetok Atoll.

The Commission was particularly fortunate in having you associated with the proof tests as a consultant. The application of your broad knowledge of special construction for scientific purposes contributed markedly to the success of our recently completed test program. Your advice, as an authority on special concrete mixes, made possible the successful completion of important gamma ray measurements.

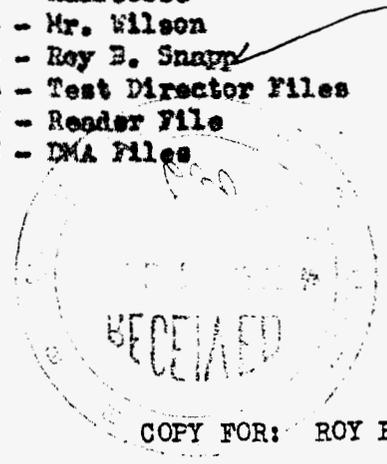

You personally have rendered the nation an outstanding service, and it is my privilege to convey to you, for the Commission, the President's commendation.

Sincerely yours,
