COLLECTION  
BOX No. 808 (NN3-326-93010)  
FOLDER MR 3A7 Castle (Vol III)

- 1954

Dear Mr. Cole:

This letter is written to inform you that the fifth detonation in the current series took place on the 4th of May, 1954 at 2:10 p.m. Washington time.

Initial reports from the Commander, Joint Task Force SEVEN indicate that the yield of this device, the modified HUNY, was of a magnitude similar to the regular HUNY fired earlier in this series. The Commission will advise you of a more precise yield estimate as soon as it is available. There is no evidence of significant fallout on any locality of the northern Marshall Islands.

The next and last detonation of the series, the IOMIE, is scheduled to take place on the 6th of May, Washington time.

Sincerely yours,
