

Howard Buffington, Group J-13

August 12, 1954

Carl W. Buckland, Leader, General Monitoring Section, H-1

EQUIPMENT REMOVED FROM J-13-1, J-13-2 TRAILERS

H-1

Various pieces of delicate equipment removed from the above subject trailers have been monitored by Group H-1 and found to have a trace of detectable radioactive contamination but are in no way considered a health hazard. No special precautions are suggested.
