1. MISCELLANEOUS:

During the early phase of Operation HARDTACK, prior to the commencement of operation of the JTF SEVEN Fallout Prediction Unit (FOPU), blast and thermal data for prediction of effects letters were computed in the J-3 office. It was believed that FOPU would furnish the required data upon arrival. However, it now appears that this project requires too much time and takes FOPU away from their basic mission of fallout prediction. Therefore, J-3 will continue to compute the data and a representative of TU-1 (J-10) will verify data before publication. (EHP)

2. PUBLICATIONS:

The following documents were published and distributed this date:

- 1862-JFE Operational Letter TOBACCO - 2 - Evacuation and Re-entry Check List for ENI.WETOK Atoll from T-1 through T+3 Day 27 May 58
- 1884-JFE Rad-Safe Processing 28 May 58
- 1889-JFE Operational Letter UMBRELLA - 1 - Ready Date and Shot Time 28 May 58
- 1892-JFE Operational Letter UMBRELLA - 2 - Timing Signal Runs for UMBRELLA 28 May 58
- 1895-JFE Operational Letter TOBACCO - 3 - Ready Date and Shot Times 28 May 58
- 1883-JFE Safety 28 May 58

BEST COPY AVAILABLE

3. SHOTS AND DEVICES:

- a. The TOBACCO device was moored at its zero site off JANET at Station 30 as per plan at 1400M today. CJTF SEVEN was so notified. LCU #454 (houseboat) and an LCM are also on station. (JHW)
- b. Today was established as TOBACCO-3 days as the barge was mooring into position. The 1500 weather briefing kept SYCAMORE scheduled for tomorrow morning, although it is rather dubious that it will go. The winds are shifting to a more favorable quarter. (FAP)

VEHICLES AND TRAILERS:

2 1/2 ton trucks #408 and 409 turned in to J-4 for shipment to JOHNSTON Island.
