1. BOATS AND SHIPS:

At 0745 Mr. Winchester of 1.13 called to state he was finished with the REHOBETH and the skipper desired to proceed to San Francisco. Coordinated with:

Operations, TU-3  
Program 1 Director, TU-3  
Program 40

REHOBETH verbally released to TG 7.3 control (CDR Brown) at 0751 hours.  
TWX will confirm. (EHP)

2. MISCELLANEOUS:

J-3 personnel should be very careful to understand fully the situation that could evolve from a notification procedure such as we presently have. There is a hot line directly from the JTF SEVEN CP to the office of CTG 7.1. There have been two occasions during operations when information on shot-delays have been phoned to the Command Section (CTG 7.1 office) and the J-3 section was not notified. This resulted in delays in notification to individuals and sections that could have vitally affected the event. Coordination on both ends is being attempted to clarify this situation. (FAP)

3. PERSONNEL:

Lcdr Roy Johnson J-3 Communications Officer departed this date for duty at the J-3 office BIKINI Atoll. (FAP)

4. PUBLICATIONS:

The following document was published and distributed this date:

1850-JFE Communication Requirements - TEAK and ORANGE Events 27May58

5. SHOT AND DEVICES:

a. Chronological record of MAGNOLIA event:

2205 Texas informs it is SYCAMORE-2, MAGNOLIA-1 and MAGNOLIA has new firing time of 0600.  
2220 Arming Party departs for zero site off Yvonne.  
2230 Permission to arm granted by CJTF SEVEN.  
2310 Arming Party commences arming.  
0115 Arming Party receives permission to make final connections.  
0230 Arming Party arrives Elmer.  
0240 J-1 sends JTF SEVEN msg "All TG 7.1 personnel are in safe area".  
0330 MAGNOLIA shot still firm after 0300 weather briefing.

- c. It is planned to lay the mooring for ROSE Station #29 off Yvonne on Thursday 29 May and moor the shot barge the same day. Arrangements were made to transfer the device from the Assembly Compound to the Pinex shot barge at the deep water pier and tow the barge up to Yvonne on 29 May. LCU #469 and a "M" Boat will accompany the movement. If radiation levels do not subside it may be necessary to send a chopper barge also. (JHW)
- d. The TOBACCO shot barge moorings (Station #30) were laid today by H&N off Janet. Arrangements were made to transfer the device from the Assembly Compound to the shot barge and tow the barge to Station #30 off Janet tomorrow (28 May). LCU #454, 1 "M" Boat and the YCU 12 (copter barge) also will go up to Janet tomorrow. (JHW)

6. VEHICLES AND TRAILERS:

Following vehicles turned in to J-4 for shipment to Johnston Island:

- Pickup #200, #202
- 2 1/2 Tons #403, 411 and 415
- 1 1/2 Ton #424 (JDT)

1 Inclosure  
Radex Readings 26 May 1958
