ENIWETOK Atoll

10 May 1958

J3-774-108

BEST COPY AVAILABLE1. BOATS and SHIPS:

- a. The TG 7.1 ATR will be returned to service tomorrow, Sunday. Lucke and Johnson will go to the MUKO at 0800 hours to check communications and traveling times. It is currently planned to use the ATR to evacuate the Arming Party. (LAL)
- b. Surface transportation to up-island points awaited on the SUBLENT dis-arming which was delayed until 0922H. Some of the delay was due to late arrival of an LCM at Yvonne. This LCM should arrive when the Disarming Party does so it can take them out to the zero site shot barge. (JTB)
- c. Other arrangements which were effective when SUBLENT was disarmed are as follows:
- (1) LCU #469, assembly houseboat, departed for Yvonne.
 - (2) LCM #260 departed for Yvonne.
 - (3) LCU #454 (chow boat) departed for Gene.
 - (4) LCM #209 departed for Gene.
 - (5) Water taxi #497 departed for Yvonne, Janet, then shuttle between Gene, Irene and then depart for Elmer at 1605 hours.

In addition, arrangements were made for a special LCU to go to Gene to evacuate trailers and vehicles since this is K-1 day. In the future, this should be coordinated with Jack Livingston (Asst Gen Sup't Supply, HMY). Our requirements should be laid on him and he will arrange boats, tractors, caterpillars, laborers and other handling equipment. Subsequently, today was announced as K-2 day, so the LCU was re-called. (JTB)

- d. A special liquid hydrogen BOMB LCM trip was set up to depart from Elmer for Sta 33 at 1600 hours and remain until the BOMBs were emptied. (JTB)

2. MEETING:

A meeting has been set up for 1300 hours tomorrow (Sunday) to be attended by TG 7.1 agencies concerned with MUKO to discuss problems and procedures for the shot. (LAL)

3. PUBLICATIONS:

4. NOTES and DETAILS:

- a. Keith Young said he wanted HOLLY moved to Sta 34 on BUTTERMUT plus one day but not if this coincided with K04 day. This is PINKY barge. (JH)
- b. The decision was made that K04 would be considered B+1 thereby eliminating conflict as to which would be fired if both were minus 1. (JH)
- c. New shot times were established for K04. These are 0630, 0644, 0658. (JH)

5. WEATHER:

Received an adverse weather report which, if it develops, would ground air transportation. John Paolozzi was called and he dispatched a T-boat and DUMM to James, Henry, Keith and Glenn. Williams has plenty of surface transport at Janet, Gene and Irene, and can pick up some people on Alice and Bell by LCM/DUMM combination if this becomes necessary. The Yvonne area has ample transportation. (JH)

6. The following are entries from the Duty Officer's Folder:

9 May 1958

1500 F-1 and B-1 from Texas CP - all notified.

2150 Texas advises this is F-1 and B-1. All concerned notified, except Sta 71.
